PROFESSIONAL EXPERIENCE

Full-Stack (MERN-Stack) Developer
Codeformers (full time)
Dec 2023 – present | Nashik, Maharashtra
- Oversaw the maintenance of Accpal, employing effective management strategies and thorough troubleshooting to ensure system stability and reliability.
- Developed seamless integration between frontend and backend systems in Accpal, enhancing overall system performance and efficiency.
- Employed advanced debugging techniques to resolve issues promptly, ensuring seamless functionality and high user satisfaction.

MERN-Stack Developer
Webient Technologies (full time)
May 2023 – Nov 2023 | Gurgaon, Haryana
- Built comprehensive admin dashboards for Pink Apron, Ub-Factory, and The St. Lucian Hub-HubLA Admin Panel, providing intuitive interfaces for efficient management and oversight.
- Demonstrated comprehensive expertise in full-stack development by developing a robust live-streaming application using MongoDB, Express.js, React, and Node.js.
- Executed a significant web3 project using React.js for Bitgert, showcasing advanced skills in modern web technologies.

MERN-Stack Developer / Frontend Developer
Dashmed (internship)
Apr 2022 – May 2023 | Remote, India
- Implemented robust authentication within Dashmed-web using Next.js, significantly improving user authentication flow and overall user experience.
- Developed and maintained high-performance, scalable web applications using MongoDB, Express.js, React, and Node.js.
- Assisted in designing and implementing RESTful APIs, ensuring seamless communication between frontend and backend systems.

PROJECTS

[1] Bitgert ⧉
- Created a platform linking clients with realtors, brokers, and property managers, facilitating seamless transactions and service exchange.
- Employed CSS, React.js, Chakra UI, NPM, Blockchain, Web3, Thirdweb, VS-Code, and GitHub to build and maintain the marketplace.
- Enhanced operational efficiency and user experience by integrating multi-channel e-commerce capabilities into the platform.

[2] WebTaskit ⧉
- Collaborated with a team of 5 members to develop a task-tracking website, leveraging collective expertise for successful project completion.
- Specialized in implementing robust task management functionality to optimize organization and planning processes, ensuring efficient task tracking and allocation.

[3] Pharmeasy ⧉
- Spearheaded the creation of Pharmeasy, offering on-demand access to prescription and OTC pharmaceuticals, significantly improving healthcare accessibility.
- Enhanced the Pharmeasy app by incorporating features that address diverse consumer needs, improving overall user satisfaction.
- Orchestrated the creation of a high-fidelity demo project with a cross-functional team of 5 experts, utilizing design and front-end development skills to deliver an innovative and user-centric solution.
